Oleg Tambulilingan

The Oleg Tambulilingan is a Balinese dance created in 1952, also known as the 'dance of love'.

It is a very sensual performance of a male & female dancers. Their simple smooth swaying movements mimics the mating dance of two bumblebees that are attracted to each other as they collect sweet nectar in a garden. This love story tells us that both sexes need one another.

Enhancing your night with an ultimate Balinese romance by watching this charming dance during your dinner amidst an exotic garden.
